	Examiner John R. Paradiso	Art Unit 3721	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Applicant's arguments filed 10/12/2007 have been fully considered. In light of the arguments and the amendments to the claims, the Restriction Requirement is hereby withdrawn and all 11 claims are rejoined.

An action on claims 1-11 follows.

Response to Arguments

2. Applicant's arguments filed 8/17/2006 have been fully considered but are considered moot in view of the new grounds of rejection below.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1-11 are rejected under 35 U.S.C. 103(a) as being unpatentable over DE 8618368 in view of KALMAN (US 3579947).

DE 8618368 discloses a box and method for forming a box including providing four faces opposing faces (2, 3, 4, 5) (see Fig. 1) and cutting an opening (7) in one of the faces. An appendage (11) is secured to the walls to form two compartments in the box. A cover (1) folds over and into one compartment, forming an appendage therein. A sheet is placed within and covering the opening in space (94).

DE 8618368 does not disclose the sheet being folded and glued within a compartment of the box.

KALMAN discloses the folding and gluing of a sheet (28) within an outside enclosure (B) (see column 2:50-75 and Fig. 5).

It would have been obvious to one of ordinary skill in the art at the time the invention was made to modify the invention of DE 8618368 by folding and gluing the insert, as taught by KALMAN, in order to provide a larger insert in a similarly small and secure space.
